PAT BRASSINGTON, *TWINS*, 2001, PIGMENT PRINT, EDITION OF 4 + 2 AP, 70 X 55.3 CM.

For every ridged lock, there's a golden key. Showing 2023 highlights from ARC ONE Gallery artists, SET OF KEYS presents major works in a star-studded line-up. To unlock the most important issues facing contemporary society, we look to a council of Australia's most esteemed, established artists. Institutions and private collectors have confirmed that these giants will stand the test of time. Masters who are capable of saying the unsayable, their work projects an undeniable authority. Daring and substantial, these artists present powerful ideas, that only great art can unlock.

"ARC ONE artists' reputations are synonymous with high-end contemporary art, both nationally and as Living National Treasures in our contemporary record books. They are key to the later part of the last Century and to the early decades of this Century.

With major exhibitions and commissions this year, their position is clear as their ideas have influenced many generations and as with most ARC ONE artists their impressive reach has been over 40 to 50 years in the making, a remarkable feat in itself." - [Fran Clark, Director ARC ONE Gallery](#)

Pat Brassington, Guo Jian, Janet Laurence, Robert Owen, Imants Tillers, John Young and Anne Zahalka are all strongly represented and held in all major institutions across Australia.
